Ideally these
would be still
images that
animate w/ the
cursor over
them,
but they can
be regular
animated too

Yes I can make a font of my
handwriting. If I have to.

Gallery!

Is it possible to
also
do enlargement
for series?

ariganahl.com/illu

Gallery \rightarrow can click
on image to enlarge
it / bring up info abt
it

\rightarrow would this require sub
pages? I'm ok not adding bg
info but rly want enlargement

So this one's more complicated
bc they're all Projects, but I don't
want a stack of ribbons.

I'm thinking a cover gallery w/
blurbs, + subpages for each.

[Project Title]

These pages should
be as clean & simple
as possible

w/ enlarge-
ment
like illu
page

This is why I need to
code from scratch. Too much
variation from page to page.

These
don't
exist yet

But
;)

I have
plans

would work like illu page
